Arrival

Changes save automatically

CR number *

123456789012345

NIMS registration number, 15 digits. Type it from the registration slip.

Patient name

Bhavith

Unidentified

"Unidentified" is a valid answer for an unconscious or unaccompanied patient — the register will ask you to say so.

Age

21

years

months

days

Use months or days for infants rather than rounding to 0 years.

Records incomplete

Nobody here. Tap "New admission" when a patient is admitted to ICU.

Cancel

New ICU admission

Physiology and labs come after — this puts them on the board.

ICU admission date

09/02/2026, 11:06 PM

The source ICU register crammed the admission date and the day's serial number into a single cell (e.g. "01-10-24 01"). They are split here into two fields so neither is lost.

Serial number

Sequential number within the admission date, as kept in the paper/Excel ICU register.

Patient name

Name

Unidentified

"Unidentified" is a valid answer for an unconscious or unaccompanied patient.

CR number *

Hospital Central Registration (MRN) number, 15 digits (format 3310 1 YY NNNNNNNN).

Phone number

Patient or next-of-kin mobile number, 10 digits.
